PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science graduate with hands-on experience in developing AI and IoT-based solutions through academic projects. Skilled in machine learning, computer vision, and full-stack web development, with practical experience in training custom YOLOv8 models, real-time data processing, and dashboard development. Strong foundation in Python, embedded systems, and cloud-based technologies like Firebase. Eager to apply technical and problem-solving skills in an entry-level role while contributing to innovative and scalable solutions.

EDUCATION

College Of Engineering Karunagappally

Bachelor of Technology in Computer Science

Kollam, Kerala, India

October 2022 – June 2026

The Oxford School, Kollam

Central Board Of Secondary Education

Kollam, Kerala, India

June 2018 – April 2021

PROJECTS

TRASH IQ – Smart Waste Bin Management System |

July 2025 – Present

- Developed an AI-powered waste management system integrating IoT and computer vision for automated waste monitoring and segregation
- Trained a custom YOLOv8m model for real-time object detection and waste classification using image datasets
- Performed dataset cleaning, preprocessing, and model optimization to improve detection accuracy
- Implemented Generative AI-based features and integrated Text-to-Speech (TTS) for intelligent system interaction and real-time voice feedback

AIR SENSE – Real-Time Air Quality Monitoring System |

May 2024 – April 2025

- Designed and developed an IoT-based air quality monitoring system using NodeMCU and multiple gas sensors
- Implemented real-time data collection and storage using Firebase Firestore and Functions
- Developed a responsive web dashboard to display environmental data and analytics
- Integrated frontend and backend systems to enable live monitoring of air quality metrics

CERTIFICATIONS

Data Science Training

JYESTA Corporate Entity

May 2025 – June 2025

AI Azure Virtual Internship

Edunet Foundation

May 2025 – June 2025

Data Analytics Job Simulation – Deloitte

Forage

April 2025

Software Engineering Job Simulation – Electronic Arts

Forage

April 2025

Web Development Training

Internshala Trainings

June 2024 – August 2024

TECHNICAL SKILLS

Languages: C, Java, Python, HTML, CSS, Javascript

Frameworks: PyTorch

Developer Tools: Git, Github, Visual Studio Code

Libraries: OpenCV, Ultralytics
